and prize sponsors
S\$20 for ICS students
S\$40 for non-members

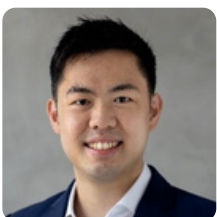

Energy transition and security remains a critical topic across energy systems, where it is often the nuts and bolts of how this is delivered which is overlooked. Enablers for this spans across both the technical and commercial teams held together by a strong operational unit. It is this arena which will be shared in this session to provide a glimpse of not only what is required for success but also other influential factors for consideration.

 3 Nov 2022 (Thursday)

 7.00 PM - 8.30 PM

 SSA Lounge
59 Tras St (S) 078998

Speaker:

Chris Wan, MICS
